

April 15, 1959

Dr. John P. Milligan
Assistant Commissioner of Education
Department of Education
Division Against Discrimination
1100 Raymond Boulevard
Newark, New Jersey

Dear Dr. Milligan:

Because of the regulations involving the integration of the New Jersey Pension Plan and Social Security, together with the mandatory retirement age of 65 imposed by the Department of Education, I find it to my advantage to request retirement and submit my resignation to have effect June 1, 1959.

This date happens to be the deadline date which will enable me to escape the loss in pension rights that integration would cause.

It goes without saying that I have a deep feeling of regret that circumstances have precipitated this action long before I feel ready for retirement.

Very truly yours,

Harold A. Lett,
Assistant Director

Dear Harold:

This will acknowledge your letter of resignation, dated April 15th. I am transmitting this to Commissioner Raubinger, who will himself, acknowledge your retirement.

I want to say that I am well aware of the contribution which you have made to the development and growth of this Division. It will be impossible to replace you.

With respect to the feeling of regret which you have about your going, I can simply say that I too, regret that the rules of the Department call for your going sooner than you contemplated.

I wish you every good fortune. I hope, indeed I feel certain, that you will find work to do which will be rewarded financially as well as personally.

For the assistance which you have given me personally on many occasions I am deeply grateful.

Sincerely yours,

John P. Milligan,
